The above prices represent the true cost of providing the accommodation. However, the College of St. Barnabas is a Charity for housing retired Clergy and their wives, and in practice many Clergy are not in a position to meet even these discounted costs. Both statutory and charitable grants are available which may be called upon to meet any difference between what the applicant can afford and the actual cost of living here.

If you require advice about finance our Bursar is very willing to help. He will not only provide advice but also assist in applying for help with housing costs.

**The above rates need not be a barrier to residency at
